Awesome, thank you so much!

I am messing in this channel. Do you think I should message from the RM Channel instead?

I will try the other channel to make sure it works.

Thanks,
 Piter

 Hello,

Sure. What channel are you messaging me on in Slack? The code is at this [link](#). If you could share your github handle, I can add you to the repo.

Thanks and regards,
Devroop Kar

 Hi Devroop,

I hope you are doing well.

I tried reaching out via Slack on Wednesday last week, but I do not think you are getting my messages.

Anyways, I wanted to check if it would be possible to get the source code for iCMAB. I would like to reference the code for the Quantum project I am working on under Dr. Krutz.

Thanks for your time,
 Piter

Hi Devroop,

Thank you, I really appreciate it.

I'll keep Slack in mind as I move forward with my research. I only reached out there to keep the chat window open, so no need to respond again since you've already confirmed here.

Best,
Piter

Hello Piter,

You can reach out either way. Slack would be faster.

Thanks and regards,
Devroop Kar

Hi Devroop,

I'm Piter Garcia, a GA working with Dr. Krutz. I just wanted to establish a channel of communication with you for any iCMAB questions I might have.

If you're okay with that, do you prefer I reach out by email or Slack?

Thanks,
Piter
